**APPROVAL TO AMEND ORDINANCES CODIFIED UNDER LOS ANGELES COUNTY CODE  
TITLE 8 AND TITLE 20 - PUBLIC HEALTH LICENSE, PERMIT AND SERVICE FEES  
(All Districts) (3 Votes)**

IT IS RECOMMENDED THAT FOLLOWING THE PUBLIC HEARING YOUR BOARD:

Approve the attached amendment to ordinances as codified under Los Angeles County Code (LACC) Title 8 and Title 20, public health license, permit, and service fees, to increase public health license, permit, and service fees, effective Fiscal Year (FY) 2006-07, by approximately three percent, effective 30 calendar days after the passage of this action following a public hearing, in order to allow the Department of Public Health's Environmental Health programs to recover revenue loss due to increased service costs.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION:

In approving the recommended action, the Board is allowing the Department of Public Health's (DPH or Department) Environmental Health programs to amend ordinances as codified under LACC Title 8 and Title 20, public health license, permit, and service fees, to increase public health license, permit, and service fees, effective FY 2006-07, to allow the Department to recover costs for the various program services provided by DPH's Environmental Health program.

Environmental Health is a regulatory agency within the DPH that performs mandated services related to food, housing, water, liquid and solid waste, and vectors. State and local health and safety codes provide for the authority to carry out regulatory activities that promote a safe and healthy environment, which are offset by the collection of license/permit and other service fees.

### Implementation of Strategic Plan Goals

The proposed fee increase will allow the Department to meet County's fiscal responsibility strategic goal by allowing the Department to secure the appropriate cost-based reimbursement fees for services provided by DPH's Environmental Health programs.

### FISCAL IMPACT/FINANCING:

DPH's Environmental Health's projected operating cost for FY 2006-07 is \$66.75 million. Without the proposed three percent increase to the public health license, permit, and service fees, the Department estimates FY 2006-07 revenue to be approximately \$61.63 million. If approved, the approximate three percent increase will generate an additional \$1.84 million in revenue, or an increase from \$61.63 million to \$63.48 million.

If approved, most public health fees for FY 2006-07 will increase by approximately three percent, except for the functional hourly rate, and the backflow prevention assembly. The functional hourly rate will increase from \$52.50 to \$61.00 since in past years this fee had not been updated to recover costs for special services rendered under LACC Section 8.04.728(c). The backflow prevention assembly fee will be increased from \$16 to \$18 to fully recover costs for the processing of annual test notices for backflow prevention devices. These devices require annual testing, mandated by State and County codes. A three percent increase is not sufficient to fully cover the cost associated with the processing of devices in the DPH Environmental Health inventory.

Except as indicated above, the Department has decided to limit its proposed public health license, permit, and service fees increase to approximately three percent, instead of the actual eight and three tenths percent (8.3%) needed to fully recover projected costs. To address the projected budget shortfall for FY 2006-07 of \$3.27 million, the Department will keep its expenditures consistent with the revenue generated, while aggressively pursuing fee collections and closely monitoring its FY 2006-07 hiring plan.

Provisions within the LACC limit all fees to cost recovery only.

### FACTS AND PROVISIONS/LEGAL REQUIREMENTS:

Pursuant to Government Code, Section 66018, a local agency must hold a public hearing as part of a regularly scheduled meeting of the Board of Supervisors, before adopting an ordinance, resolution, or other legislative enactment adopting a new fee, and shall publish notice of the public hearing in a newspaper in accordance with Government Code, Section 6062a. On August 4, 2005, following a public hearing, the Board approved fee increases for regulatory and inspection activities, and ordinance amendments to the LACC, Title 8 and Title 20, for FY 2005-06.

### CONTRACTING PROCESS

Not applicable. It is not appropriate to advertise ordinance amendments to the LACC on the Los Angeles (L.A.) County Online Web Site as a contract/business opportunity.

### IMPACT ON CURRENT SERVICES (OR PROJECTS)

The plan developed to address past deficits and the projected budget shortfall for FY 2006-07 will continue, and will affect the inspection frequency and response capability of DPH Environmental Health

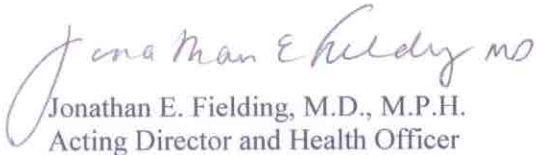

programs. In general, the DPH expects program adjustments, while maintaining basic services at reduced levels. With the exception of the DPH housing inspection program, the Department anticipates the impact of the projected budget shortfall, as it relates to other current services, to slightly reduce the frequency of inspections, to create somewhat longer response times and longer approval periods for plan checks, as well as, fewer sweeps or investigations of unlicensed activities related to food vendors, garment manufacturers, and illegal dumpsites, but all still within mandated requirements.

Negative Declaration/Environmental Impact Reports

Not applicable.

When approved, it is requested that the Executive Officer of the Board of Supervisors return four adopted stamped copies of the Board letter and ordinances to the Director of Environmental Health, at 5050 Commerce Drive; Baldwin Park, California 91706.

Respectfully submitted,

  
Jonathan E. Fielding, M.D., M.P.H.  
Acting Director and Health Officer
